

## **FUEL AT SUMMERNATS**

This FAQ addresses common entrant questions about how fuel is handled, sold and dispensed at Summernats. Our top priority is to keep all Summernats attendees safe, and proper fuel handling is a very high priority.

### **Can I bring my own fuel?**

No, you must not bring your own fuel to Summernats. The fuel requirements of 2000 vehicles are enormous. Having fuel in hundreds of locations around the venue creates an unacceptable safety risk. With that in mind, we have created the Summernats Fuel Depot. It is a managed fuel storage and distribution point where entrants may purchase a variety of fuel types during the event.

### **Can I bring fuel and keep it at my campsite or in my trailer?**

You must not store any fuel whatsoever at your campsite, in your trailer, or anywhere at all inside the boundaries of Exhibition Park. This includes all vehicle and trailer parking areas.

## **Can I bring any fuel at all?**

The only fuel allowed to be brought into the venue is what's in your fuel tank or fuel cell in your car. Any attempts to smuggle fuel into the event will see that fuel confiscated for the duration of the event and you will not be allowed access to it until the conclusion of the event.

## **How do I order fuel?**

You are no longer required to pre-order fuel. Simply turn up to the Summernats Fuel Depot, let the staff know what type of fuel you're after and fill up. Simple.

## **How much does fuel cost at Summernats?**

Please check fuel prices closer to the event.

## **Do you have my type of fuel?**

The Summernats Fuel Depot stocks a variety of fuel types including methanol, E85, E98 and PULP.

If you require an uncommon or unusual type of fuel for your vehicle you should let the

Summernats office know well in advance so we can advise availability.

### **How can I pay for my fuel purchase?**

The Summernats Fuel Depot has EFTPOS facilities available. Cash is also accepted.
